

DIGITAL TESTING

Practice Quick Start Guide

Prepare for the SAT in 10 Simple Steps:

1. Download **Bluebook™** and get access to full-length practice tests from the makers of the SAT®.

2. On the Bluebook homepage, navigate to **Full-Length Practice** under Practice and Prepare. You can also select **Test Preview** to get a peek at the app's built-in tools and familiarize yourself for test day. Resume a practice test you've already started from here.

The screenshot shows the Bluebook homepage for a user named George Riley. At the top, there's a welcome message: "Welcome, George! Take a practice test and get ready for test day." Below this, there's a section titled "Your Tests" with tabs for "Active" and "Past". A message states: "You Have No Upcoming Tests. Tests appear here a few weeks before test day. If you got a paper ticket from your school, sign out and sign in with it." There's a link "Don't see your test here?". Below that is the "Practice and Prepare" section with tabs for "Active" and "Past". It contains two cards: "Test Preview" and "Full-Length Practice", with the latter being highlighted with a blue border. A link "Learn more about Bluebook practice" is also present.

3. Select your **Test Type** and **Practice Test** from the dropdown menus available. If you plan on testing with accommodations, select the switch next to "I will be testing with accommodations" to apply them to your practice test.

The form is titled "Choose a Full-Length Practice". It contains three main sections: "Test Type *" with a dropdown menu showing "SAT"; "Practice Test *" with a dropdown menu showing "Select"; and "Accommodations" with a toggle switch labeled "I will be testing with accommodations". A note "* = Required" is located at the top right of the form.

Then, select which accommodations you want to apply to your practice test.

Accommodations

[Why don't I see my accommodation listed here?](#)

If you're approved to take the SAT with a paper test book accommodation, your practice tests are available on our website at satsuite.collegeboard.org/digital/digital-practice-preparation/practice-tests/linear. If you require printed braille materials on test day, contact SSD customer support for a braille practice option by emailing ssd@info.collegeboard.org or by calling 844-255-7728. Learn more about accommodations and how to request them before test day at accommodations.collegeboard.org.

NOTE: While anyone is welcome to use our accommodated practice tests, using these practice materials does not mean you have been approved to test with a particular accommodation.

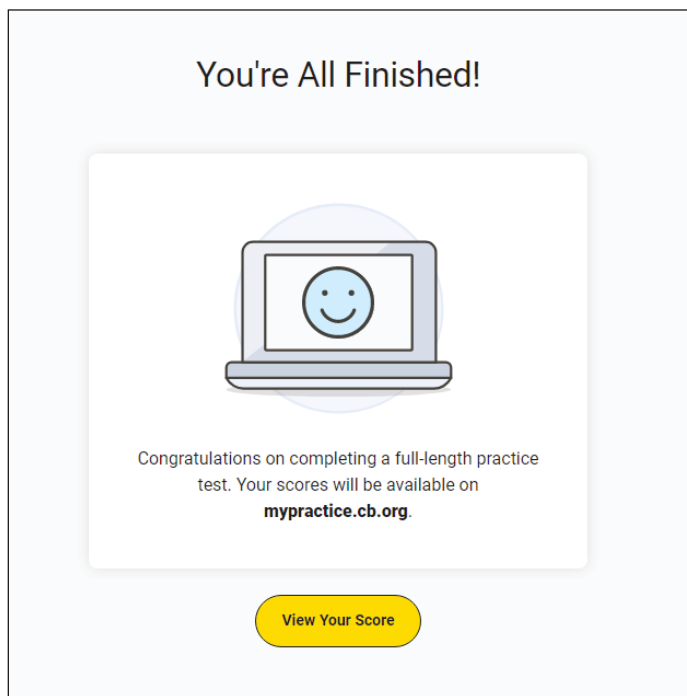

4. Follow the onscreen instructions as indicated below, then start practicing! We recommend taking at least 1 practice test with the timer and allowing for breaks as you would on test day. However, you can practice your way, pause as needed, and, when you're ready to resume practice, pick up right where you left off.

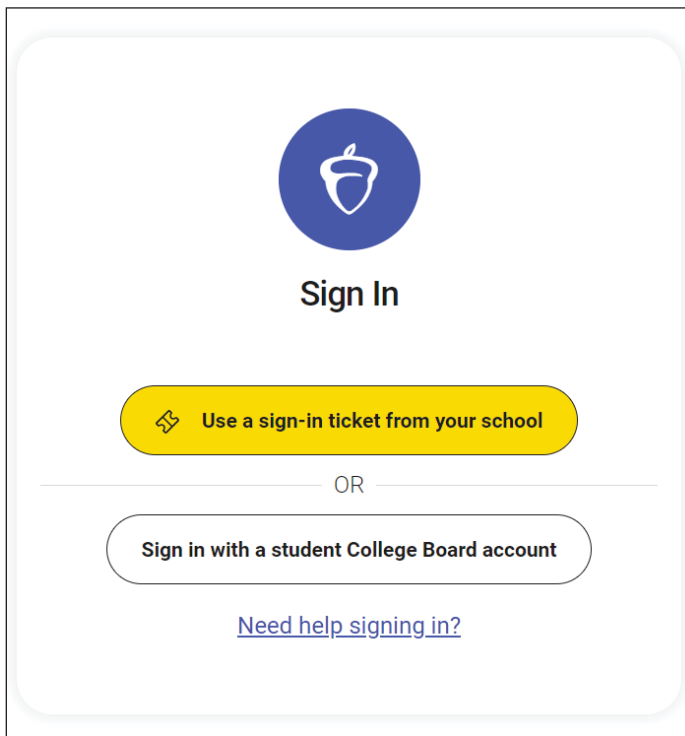

5. During the practice test, use the Bluebook built-in tools previously mentioned in step 2. You'll find **Mark for Review** and **Answer Strikeout** on the questions themselves. The rest of the tools can be found in the top right corner. You'll see icons for a **Built-In Graphing Calculator** and **Reference Sheets**, as well as a **More** option that includes a **Highlights** and **Notes** tool.

The screenshot shows a digital testing interface. At the top, a red timer displays '3:15'. In the top right corner, a toolbar contains icons for 'Calculator', 'Reference', and 'More'. The main question area is titled '3 Mark for Review' and asks: 'What is the area of a rectangle with a length of 17 centimeters (cm) and a width of 7 cm?'. Below the question are four radio button options: '24 cm²', '46 cm²', '119 cm²' (which is selected), and '576 cm²'. Each option has an 'Undo' button to its right.

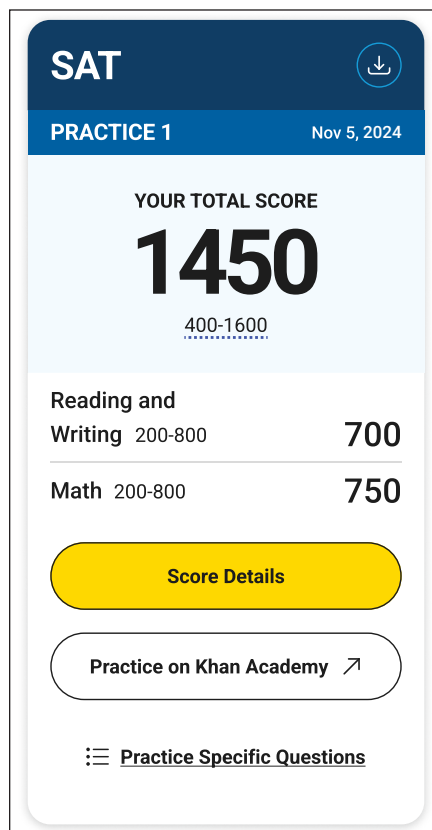

6. After you complete the practice test, click **View Your Score**.

7. Sign in to **My Practice** using the same login credentials you used for Bluebook to retrieve your scores.

8. Once on My Practice, review your scores. Then, select **Score Details**.

9. To get the most out of your practice tests, review your answers, the correct answers, and explanations under **Actions**. You can also view a set of **Practice Specific Questions**, which My Practice will generate for you based on the results of your practice test to provide additional review in the areas where you have the greatest opportunities for improvement.

| Question | Section | Correct Answer | Your Answer | Actions |
|----------|---------------------|----------------|--------------|------------------------|
| 1 | Reading and Writing | B | B; Correct | Review |
| 2 | Reading and Writing | D | D; Correct | Review |
| 3 | Reading and Writing | C | C; Correct | Review |
| 4 | Reading and Writing | B | B; Correct | Review |
| 5 | Reading and Writing | A | A; Correct | Review |
| 6 | Reading and Writing | D | D; Correct | Review |
| 7 | Reading and Writing | A | A; Correct | Review |
| 8 | Reading and Writing | A | A; Correct | Review |
| 9 | Reading and Writing | A | A; Correct | Review |
| 10 | Reading and Writing | D | B; Incorrect | Review |

10. By clicking the **Practice on Khan Academy** button on your scorecard or Score Details page, you can go to Khan Academy® directly from My Practice and take advantage of free Official Digital SAT Prep that includes thousands of practice questions, videos, lessons, and hints to help you build the skills needed.
